Bolt-On Pivot Hinges Powder-Coated to Match Gate

## What's included?

Graft has assembled the aluminum swing gate kits to suit all kinds of applications. The kits include everything that is required for a complete and professional turnkey solution. Options are available to add-on for a customized system that suits your needs.

## Add-Ons

**DoorBird D2101KV IP Video Station**  
Stay connected to your gate with real-time voice and video communication from anywhere in the world. Access the DoorBird App on your smart devices with no additional monthly fees.

**Vandal Resistant Keypad**  
Ideal for applications where coded entry is required for access through the gate.

**Preformed Induction Loop**  
Add an extra layer of safety to your gate with a preformed loop. Loops prevent your gate from closing if a vehicle is in the path. They can also be used to open your gate automatically on exit.

## Prefabricated Aluminum Swing Gates

La Toulousaine has been supplying the gate and fence industry with quality products for over 60 years.

Their innovation and attention to detail shows in the reliability of their product. All gates are manufactured in France with aluminum; a high-strength and low-weight material. Thousands of design and colour combinations are available to customize the look of your gate. Visit [la-toulousaine.com](http://la-toulousaine.com) for more information.

# GRAFT

Graft is the Canadian distributor for La Toulousaine. All La Toulousaine gates and fencing are guaranteed for 10 years.

# Aluminum Swing Gate Styles

## ST GERMAIN

Classic, open concept arched design.

Lightweight

Durable

**Benefits of Aluminum Gates**

## TENERIFE

Welcoming alternative to the traditional upward-arched gate design.

Environmentally Friendly

Corrosion Resistant

## Inner Column Post

for applications with stone pillars

Designed to make integration of your gate, masonry, and automations seamless on new entryway projects. These posts eliminate the need for installers to cut, grind, and weld around finished stone and driveway surfaces. The result is a clean and professional installation.
